Specialized Analysis Research Proposal

- Include site information, physiographic setting and basic PA-SHARE information including site number and name.
- Specify the type of analysis, cite similar research studies, and include a timetable for completion within 18 months of award.
- Include justification of analysis what new information regarding the site or our knowledge of Pennsylvania archaeology will we gain from this analysis/research.

Budget estimates from labs for completing analysis (maximum award \$1,000);

The award requires presentation of analysis/research as a presentation at the annual Society for Pennsylvania Archaeology (SPA) conference, as a poster at an SPA conference, or a published paper in the *Pennsylvania Archaeologist* journal.

I agree to complete the above requirement for presentation of research within 18 months of award of this proposal.

Signature.

Upon Completion of Analysis and Reporting a Final Report to the Committee will be submitted. This will include documentation of expenses- invoices for lab analysis and a summary of the results of research.

I agree to submit final documentation of expenses and research results to the fund administrator within 18 months of receipt of award.

Signature.
